Commercial Wilmington.

Wilmington is on as sure a foundation as any city in the South.

The harbor is commodious, with a depth of water of 22 feet from the city to the ocean.

It is the natural outlet of a large section of the country.

Six lines of railroad lead into it, with side tracks leading through the business portion of the city, affording most excellent facilities for the handling of all classes of merchandise.

The principal exports are naval stores, cotton, and lumber. Of naval stores she exports the second largest amount in the world; of cotton she is the third exporting city in amount in the United States.

She has about \$9,000,000 in taxable property; banks with combined resources of \$3,000,000.

An oil distributing plant, a cotton-seed oil mill, two large cotton factories, three fertilizer manufacturing plants, three daily newspapers, two large cotton compresses, two ice factories, a rice mill, eight saw-mills (with a capacity of more than 60,000,000 feet a year), two paint factories, a cotton dyeing establishment, a bag factory, two electric light plants, two woodworking factories, two wood-distilling factories, a line of electric cars reaching all quarters of the town, a gas plant, railroad machine shops and car shops, a crate factory, a shuttle block factory, a baking powder factory, several sash, door, and blind factories, two plants for the production of menhaden products, and a plant for the manufacture of fine building brick add to its general prosperity.

About fifty wholesale grocers and dealers in hardware, drugs, dry goods, furniture, boots, and shoes do business within its limits of from \$50,000,000 to \$60,000,000 annually.

This immediate section for trucking is the garden spot of the world. The amount of strawberries shipped last season exceeded in value \$5,000,000. All kinds of garden truck abound. There are more opportunities for the energetic pushing young man than in any other city on the Atlantic Seaboard.

FOLDOUT BLANK

Introductory.

WE PRESENT this, the 1902 edition of the Wilmington City Directory, to the public with the assurance that neither time nor trouble have been spared in its production. That Wilmington is progressive and has progressed greatly since our last issue, an examination of its pages will clearly show. A great increase will be noted in the number of manufacturing concerns, one of the sure indications of prosperity in a town. Situated within easy reach of the ocean, the great waterway of the nations, and reached by railways running North, South and West, Wilmington is doubly assured of continued growth and prosperity.

To the many who have materially aided us by their care and attention we must return our thanks; and to our patrons who have so liberally patronized us, if we meet their approval and commendation, we will have subserved our purpose. We are

Very respectfully,

LOOSE LEAF ACCOUNT BOOKS

Enable you to increase the volume of your Business without correspondingly increasing the expense in your Accounting Department

DOES OUR PERPETUAL LEDGER SAVE YOU MUCH TIME?

3427 Bookkeepers who had used our books more than one year were asked this question
3396 of them replied in the affirmative

LEAVES ARE HELD IN A VISE-LIKE GRIP
WHEN BINDER IS CLOSED

PATENTED
DEC. 22, 1885
JULY 1, 1890
FEB. 27, 1900
MAY 15, 1900

THE PERPETUAL LEDGER

A leaf may be easily inserted or removed from any portion of the Binder without disturbing another

SALES OFFICES IN ALL THE PRINCIPAL CITIES. WE VISIT EVERY TOWN
IN THE UNITED STATES

ADVANTAGES OF OUR SYSTEM

Perpetual

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account

Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts

Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error

Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled

As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity

A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy

In every case it costs far less in the long run—less in material, less in time, less in labor.

OVER 12,000 BOOKKEEPERS NOW USING OUR LEDGERS TESTIFY TO THESE POINTS OF SUPERIORITY

BAKER-VAWTER COMPANY

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department

Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks.

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.

Billing and Charging System.

Adapted to most any business — an invoice and journal entry being made at one writing.

Can be used either for typewriter or hand writing; produces an exact copy of every invoice.

Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports.

For the Shipping Department

Safety Manifold Shipping and City Delivery Receipts and Books.

By the use of which errors in shipment are prevented and all possibility of loss through miscarriage eliminated.

Merchandise Envelopes.

For the mailing of merchandise, samples, etc., at 3d and 4th rates of postage.

Shipping Tags.

For the Accounting Department

In this department we offer the greatest labor-saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers — General Sales and Creditors.

Perpetual Trial Balance and Proof Books, Journal, Cash and Other Auxiliary Books.

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish Bills Payable and Receivable Forms, Voucher Systems, Check Registers, Pocket Ledgers and Collection Reports.

Monthly Statement System.

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System.

By which any number of clerks can work upon an inventory at one time without the necessity of rewriting. We also manufacture a complete line of high-grade

Ruled Sales and Letter Impression Books.

For the Manufacturing Department

We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties, and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

For Banks

Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks, and have been universally adopted for General, Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books.

Our Silica Daily Balance Book offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

IF YOU WANT THE MOST MODERN, UP-TO-DATE METHODS OF ACCOUNTING, LET US SYSTEMIZE YOUR BUSINESS

**FACTORIES: CHICAGO; ATCHISON, KANSAS
HOLYOKE, MASS.**

OUR SECTIONAL POST BINDER

Holds securely one sheet or one thousand.

Has no long and unsightly posts projecting to catch on everything and be in the way.

Can be opened and expanded to receive leaves without removing the cover.

It is equipped with one-half and six one-inch sections for each post.

It is particularly adapted for filing records of any kind that require indefinite expansion.

PATENTED MARCH 17, 1892. DECEMBER 19, 1899.

Securely Locked by mechanism in top cover.
Key-hole shown in lower left hand corner of cut.

We have 60 experts covering the entire country. If one is not located in your city, he can call on you in a few days if you will notify our nearest office.

We are the originators and manufacturers of the Perpetual Ledger and many other Loose Leaf Labor-Saving Systems.

HOWELL MILITARY ACADEMY, WILMINGTON, N. C.

ANDREW J. HOWELL, Jr., Principal.

The Howell Academy merits our especial notice. It is an institution that has fully gained the confidence of the community. The Principal has fitted a number of young men for college within the past few years, and their standing in the higher institutions speak well for the foundation laid.

The school is guided by the principle that a generous, manly, Christian spirit affords the only atmosphere for the proper character of school work. The students are impressed with these ideas, as well as with the necessity for thorough study.

Commercial branches, i. e., stenography, bookkeeping, commercial arithmetic, etc., are also successfully taught, and the school is well represented in several of the best business houses of Wilmington.

The Principal is Prof. ANDREW J. HOWELL, Jr., who is ably assisted by other instructors.
